

Explore. Create. Connect! A new place for community connections
4/6/20

Dear Trailblazers,

We miss having you on campus and we know you miss us too! Wondering how you can stay connected to campus? Looking to chat with some of the people ready to help you this semester (and always)?

Here's how: Our MCLA Community Connection page. This page was created just for you to help you stay connected to the magic and excitement that makes you an MCLA Trailblazer. Visit the link below and explore the variety of ways our student life connections can make you feel back at home at MCLA.

These links and pages will help answer questions, keep you virtually engaged with our community, and even reconnect you with some of the excitement and traditions we always offer our students, just in a remote format. Share in moments with clubs and organizations during virtual meeting groups, enter a variety of contests, chat with your favorite Student Affairs staff members, and join in on online events still planned for the semester. All semester, we will be working to recreate these experiences for you in a virtual friendly format. We want to make sure you can still get part of the MCLA magic, that community feeling that we all love so much and depend on.

Feel free to also click on the comment link to offer additions and suggestions to our virtual community. We want to hear from you!

Thank you so much—and we WILL see you again!

--Celia Norcross
Assistant Dean of Students
