

Summer Graduate Courses 2021

MASTER OF EDUCATION/LICENSURE COURSES

EDUC 702/EDUC 722 Ethics and Foundations of Schooling

Examines how teaching is shaped by social and cultural forces that extend well beyond the walls of the classroom; how teaching is influenced by the decisions of political authorities and shapes the quality of political life in society; and ultimately how teaching has moral dimensions that involve the responsible treatment of students, colleagues, parents and other community members.

EDUC 784 Capstone Seminar

Building on an interest that emerges from Master of Education course work or field-based experiences, students will propose and execute a substantial project that blends theory with practice. Project outcomes may take the form of text, visual media, performance, websites, or other. Projects may address school/family, community, or cultural issues; teaching approaches; or school-wide, district-wide, or statewide practices or policies. Prerequisite: Departmental approval

EDUC 717/EDUC 718 Curriculum Theory and Democratic Practice

Focuses on how social movements, economic conditions, political power, aesthetic sensibilities, spirituality, and ethical frameworks influence curriculum development. Students will develop a greater awareness of the existence of competing curricular theories and world views, including postmodernism, existentialism, hermeneutics, critical theory, and feminism. The aim is for students to link their philosophies of curriculum to the enhancement of democratic practice in school.

RDNG 616/RDNG 617 Literacy Acquisition and Development

Focuses on current theories related to language development and learning; programs and practices for literacy development and acquisition; knowledge of language structure; the history and evolution of English; literacy acquisition for non-native English speakers; and the socio-cultural contexts that influence language development and literacy acquisition. Participants develop a portfolio of resources, teaching strategies and assessment tools.

RDNG 720 Critical Literacy in Content Areas

This course explores pedagogical approaches and assessment strategies to support students at all grade levels in developing literacy across all academic subject areas. Participants will extend understanding of developmentally appropriate literacy curriculum by integrating literature, visual arts and other media into content areas for grades K-12.

EDUC 784 Capstone Seminar

Building on an interest that emerges from Masters of Education course work or field-based experiences, students will propose and execute a substantial project that blends theory with practice. Project outcomes may take the form of text, visual media, performance, websites, or other. Projects may address school/family, community, or cultural issues; teaching approaches; or school-wide, district-wide, or statewide practices or policies

CONTENT COURSES/OTHER COURSES

BIOE 601 Epidemiology

Introduces the student to the field of epidemiology. Students will learn about the distribution, frequency, and determinants of patterns of disease and health conditions in various human populations.

EDUC 634 Connecting the Hoosic Watershed to Pk-6 Science Standards

Course Description: The Hoosic Watershed is rich with varied natural history and resources. In this course educators will explore the Hoosic Watershed through a place-based lens. The course will be taught both online and in person, with short multi-day field trips to local waterways and habitats being a key feature. Educators will be provided with ample resources to develop curricula that is specific to their local region and interests. Curricular connections to the PK-6 MA State Science Standards will be integrated throughout the course.

EDUC 634 “I Can’t Breathe:” Racial Capitalism at the Intersections of Race, Social Class, Space, and School

The guiding, interdisciplinary question of this course is, *Why can't Black bodies breathe in America?* The professor and students in this course will act as parallel learners who attempt to respond to this same question and, therefore, both will be “the student” in this unique and timely class that will use methods of history, aesthetics, and multimedia. The course will use as a case study the Derek Chauvin trial in the death of George Floyd to examine how the historical and contemporary landscape of American racial traumas are devised, composed, and constituted

ENGE 601 Literature and Society

Discusses and analyzes a variety of literary works that illuminate social issues. Integrates literature with other disciplines by focusing on several contemporary themes of social relevance.

HSTE 601 Abolitionism and the Berkshires

This course will explore the development of African slavery in North America, the various movements against the practice of slavery, and the vital place of Berkshire County in these complex movements. We will be studying primary and secondary documents, as well as experientially-based learning through visiting local sites of interest.

HSTE 601 Civics in Massachusetts

Topics to be covered include- history of the United States of America; the Constitution of the United States, including the Bill of Rights; the Declaration of Independence; the constitution of the commonwealth; local history and government; the function and composition of the branches of local, state and federal government; the roles and responsibilities of a citizen in a democracy; the development of skills to access, analyze and evaluate written and digital media as it relates to history and civics; community diversity and historical trends in voter registration and civic participation relative to disenfranchised voter populations; opportunities to identify and debate issues relative to power, economic status and the common good in democracy.

MATE 601 Math Modeling for Educators

Mathematical Modelling for Educators is designed for K-12 educators who are already teaching mathematics, but who want to support their pedagogy by incorporating real-life mathematical modelling projects. The course explores the tools necessary to create and adapt modelling projects, keeping in mind the current best practices in assessment and transparency, with a focus on writing and coding in mathematics.

MASTER OF BUSINESS ADMINISTRATION COURSES**MBA 650 Competing in Global Economies and Markets**

Addresses the impact of national and global economic developments on the business environment. The determinants of national income, inflation, interest rates, unemployment rates, business cycles, exchange rates, and foreign investment are discussed, with particular attention to the increasingly important linkages between the U.S. and global economies. The course also examines the effects of U.S. and foreign government policies with respect to taxation, public expenditures, money supply, capital markets, and foreign trade and investment on the economic environment of business.

MBA 660 Managing and Leading (3cr)

Examines effective and ineffective leadership, exhibited in a variety of organizations and environments, through historic and modern theory, ethical standards, and legal standards. Readings, case studies, and exercises are used to apply theory and standards. Managing issues of motivation, leadership, job satisfaction, team dynamics, and organizational restructuring are addressed.

Room Key:	Format Codes:
Pittsfield = 66 Allen St	ASYNCH = fully online, no required meeting times
CSI = Feigenbaum Center for Science and Innovation	SYNCH = required meeting times are online
	HYBRID = a blend of face-to-face and online instruction
